

High Quality Fine Ground Calcium Magnesium Carbonate

PROPERTIES	TYPICAL	RANGE
CaCO ₃ / MgO	94%	90 - 96%
CaO	36.3%	32 - 36.3%
K ₂ O	0.71%	
MgO	15%	12 - 16.5%
P ₂ O ₅	0.18%	
SiO ₂	<3%	3 - 5%
Mean Average particle size	18	

Micronised Minerals (MMS) mineral earths company focused on offering high quality mineral products and whole of service in innovative ways. Established in 2007, MMS ensures production of high-quality fine ground minerals with the added capacity to accurately blend products.

Our specialised manufacturing Twin Vertical Roller Mills provides annual capacity of >100,000 tonnes production, for exacting product sizes down to 2.3 - 18 micron. We can meet customer delivery requirements with bulk bag packaging of 500-1200kg and 25kg sacks. Purpose-built tipping containers up to 74 tonnes are also a delivery option for large scale spreading requirements.

MMS DOLOMITE is a high quality, Calcium Magnesium Carbonate product ground to mean average particle size of 18 microns. Ideally suited for aerial spraying and provides a rapid uptake for crops, fruits and pasture. It provides Carbon Dioxide, vital for synthesis of starches, sugars and carbohydrates and prevents loss of Copper, Zinc, Manganese, Phosphorus and other trace elements from acid or saline soils.

Dolomite has been recognised for centuries as the most valuable fertiliser tool available to farmers, graziers as well as gardeners. It contains trace elements essential for soil balance, countering toxic effects, triggering germination and providing enzymes vital to all growth and life processes.

Key Product Features and Benefits

- ◆ Allows improved water penetration for acidic soils, provides trace elements for Calcium and Magnesium deficient soils.
 - ◆ Improves the uptake of major trace elements like Nitrogen, Phosphorus and Potassium for plants growing in acid soils.
 - ◆ Improves soil efficiency and crop yields
 - ◆ Improved pastures; ideal for cattle feed where magnesium mineral supplement is required.
- ☒ Supplied with packaging options: Bulk Tankers and Bulker Bags of 1000 - 1200 kgs
